

## MEMORANDUM

**TO:** Lead Asset Manager **FROM:** Ananya Sharma, Director of Infrastructure **DATE:** October 26, 2023 **SUBJECT:** Immediate Action Required on Greenway Stakeholder Issues

As you know, the Greenway Light Rail Expansion is our highest priority. The project is operating on a razor-thin margin, both in terms of budget and timeline. Our primary funding is tied to federal grants with strict start-date covenants. A delay of more than 60 days puts us at risk of losing over \$500 million in allocated funds.

The recent public outcry is a direct threat to our schedule. We cannot afford a protracted public relations battle or, worse, injunctions that halt preliminary work. I need a comprehensive strategy to manage these stakeholder risks immediately.

Your task is to analyze the key players and develop an engagement plan that neutralizes opposition and builds a coalition of support. We need to show our federal partners that we have this situation under control. I expect your full report on my desk by the end of the week. This is critical.
